EVALUATION MEMO

Dear Parents,

We understand that evaluation time is very difficult, confusing and stressful time of the season for all involved. We recommend that families gather as much relevant information about their potential club choice during the process so that commitments to the club will be honored, as we will be prepared to make a commitment to you if selected. We realize not every player or parent will be happy with the outcome of evaluations, however, we do ask that each parent and player respect the process and ultimately the outcome. The coaching staff is sensitive to these stresses and will do their best to handle each player and parent with care, compassion and respect.

Our coaching staff will send email notifications to all players seeking a spot on a team within five days after our last evaluation or tryout date for the age group. Some players will be contacted earlier, even while evaluations are still being held, while others will not be contacted until later. Everyone will be contacted no later than the promised deadline.

We have many decisions to make, many calls to place and many conversations to have. Throughout the process we will respect everyone's effort demonstrated by participation in our evaluation process. Please don't worry if one player receives early notification while your notification has not come yet. Rest assured, we will work through our decisions and make the final selections and notifications as promptly as possible.

We also request that parents stay off the grass fields during the course of the evaluations, as we would like to conduct these sessions in a player-friendly environment.

Thank you for your consideration and your interest in South Carolina United FC - Mount Pleasant.

Sincerely,

SCU/MP Staff
